

Relocation Project

Necessitated relocation

Inteliscape in its continued efforts to provide the most advanced quality technology solutions for its client's understands there is a direct link between happy, motivated people and satisfied, customers. A significant increase in number of staff was forcing us to consider moving into a new office. Alongside this growth, we felt new offices would enable us to move away from a traditional reputation towards a more modern customer and employee focused approach.

Choosing the building:

A prestigious development in the outskirts of the city was chosen as a great location for new premises to accommodate our fast growing organisation and reflect our culture and values.

Our people are the most important part of our business and that's why it was crucial while designing the interior to create something that would assist our networks and strengthen the knowledge pooling aim by creating an environment that not only it's pleasant to work in but also at the same time it's supporting the collaboration and team-working culture.

Our main aim while designing the new office space was to make it elegant with a modern touch, a place where our people would enjoy working in, but also practical and professional. The fact that we where relocating was announce to all employees immediately after the decision was made, we were asking for suggestions and their input as to how to make the new office better to serve there needs. Therefore, small details that make the difference were leveraged from employees' suggestions.

Key features of the new office expressing our values and vision:

- **The modern design and openness**
 - Articulated by the curved walls and the glass corridors.
 - Reception area with a contemporary appearance, and stylish sitting facility
- **Effectiveness and efficiency**
 - Training room for knowledge transfer and training, expandable to a large space to fit all in large engagements.
 - Conference room with hidden projector facilities
 - Hidden storage areas
- **The collaboration culture**
 - Developer team rooms with high ceilings for space, small and discreetly desk partitions for privacy but not isolation, scuttles in-between the two teams for contact
- **Pleasurable environment**
 - Cafeteria designed to sit relax and discuss matters in an enjoyable environment.
